Latex seals, Integrated latex boots

**The original favourite, this type of suit has been manufactured and produced for thirty years to the same high-quality finish time after time.**

Today we have the opportunity to offer in three different types of materials, cordura, polyester and nylon each with their own distinctive characteristics benefits.

Available in male and female sizes, see standard size chart. Alternatively you can use our custom fit service for bespoke suits.

**This standard type rear entry drysuit features our raglan sleeve design which gives the benefit of extra movement and buoyancy when required.**

Braces and integral knee pads is a standard feature plus this suit is offered in three types of material, cordura, polyester and nylon, see materials and colours for options.

### British made

All our suits are designed and manufactured in the UK by our experienced professionals.

Tens of thousands of suits, manufactured by ourselves, have been supplied to both the professional dive market and sporting divers alike.

### Materials and colours

All materials used by Azdry have a butyl laminate which has resistance to oil, good flexibility with no cracking down to minus 40° C and has the best gas proofing abilities, better than any other polymer available. Our material supplier we have used for over 25 years, offer the best materials available today.

### Material - Nylon

#### Main Body Colour

Black

#### Contrast Colour

Black Red Yellow Orange

### Seam Sealing System

Developed by ourselves in 1984, our seam sealing system is still the market leader today.

Firstly we use a twin-needle stitching technique followed by a primary sealing with a narrow neoprene tape, then a secondary sealing using a wider neoprene tape.

**Guaranteeing many years of dry sealed seams!**

### Rear Entry Zip

The rear entry zip is probably the easiest entry positioned zip to use.

In all our drysuits we use the medium duty zip.

### Latex Seals

Latex seals are fitted as standard. These seals are fitted onto the suit and are taped inside and out.

Heavy-duty cuff seals are used which come in four sizes, plus sizing rings on each seal for the perfect fit.

Bellowed latex neck seal is used and is available in four different sizes.

### Integrated Latex Socks

Latex socks are available in up to four sizes, alternatively we also offer a fabric sock which is made to order in shoes sizes.

### Pocket Options

Many options are available, including six different styles of pocket each with their own functionality. Knife pockets are custom made to accommodate your own knife sheath.
